

Message to Physicians

Barzilai University Medical Center offers an advanced professional environment with broad development opportunities, excellence programs, and full support for physicians at every stage of their career.

Main Opportunities

Excellence programs - mentorship, fellowship, research, and management reserve

Active Innovation Unit - encouraging physicians to engage in innovation

New research and innovation center - in planning, with future opportunities

Guidance and Support for New Physicians

Personal and professional mentoring, a structured onboarding process, and guidance on housing and spouse employment.

Research

Collaborations with universities, health funds, high-tech and innovation sectors, laboratories and research centers, seed grants, and research fellowships.

Innovation

An active Innovation Unit and encouragement for physicians to engage in innovation.

Staff Well-Being

Resilience and burnout programs, community activities, emotional and professional support, and employment flexibility.

In-Demand Specialties

Internal medicine, obstetrics and gynecology, orthopedics, pediatrics, urology, and surgery.

Professional and Personal Development

Mentorship programs, fellowships, research, medical education, management reserve, and excellence programs.

Medical and Managerial Leadership

Leadership programs, management training, mentoring, and skills courses.
